

A technical drawing of a multi-tiered shelving unit, likely a seedling tray or a small-scale agricultural rack. The unit consists of two main vertical frames, each with five horizontal tiers. The frames are connected by a central horizontal structure. Labels A, B, 1, 2, 3, 4, and 5 are used to identify various components: A points to the top horizontal rail of the side frames; B points to the vertical support posts; 1 and 2 point to the top horizontal rail of the central structure; 3 points to the vertical support post of the central structure; 4 points to the horizontal rail of the side frames; and 5 points to the horizontal rail of the central structure.
